Radiator Grille

Anping Web Wire Mesh Co.,Ltd.

Wire Mesh For Radiator Grille

Introduction

Car grille is often found on high-speed vehicles, it also allows maximum airflow while giving ultimate protection to your radiator, engine, and air intake of a vehicle from debris, collisions, and other accidents etc. . When producing the car grille, the crimped mesh is widely used in the car industry.

The metal wires is crimped slightly at regular intervals, stronger than plain woven wire. Also crimping the wire can give a attractive designer pattern to an otherwise plain-looking mesh grille.

The mesh available in many sizes. The mesh size is referred to '3 mesh' which means 3 holes in one inch for making radiator grille. If you want a different size, phone or email us with the size of the grill mesh you require.

Idea for	Screen Size	Features & Benefits
<ul style="list-style-type: none">• Car• Bus	<ul style="list-style-type: none">• 6mm opening• 8mm opening• 10mm opening• 12mm opening	<ul style="list-style-type: none">• Very strong and resistant to corrosion popular metal• Durable, resistant and easy to fashion into a multitude of shapes and forms.• Well designed & polished for the cars• Protect radiator and engine• Make the car stand out from the crowd

Technical Parameters

When ordering, please specify:

1. Weave Type

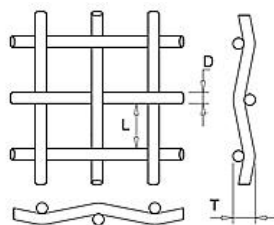

Plain weave, Plain crimped weave type, single crimped, double crimped

2. Wire Diameter (D)

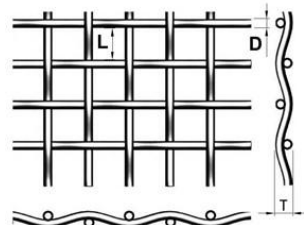

3. Hole Size (L)

4. Panel Width (PW)

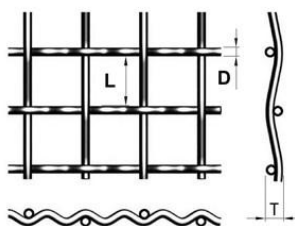

5. Panel Length (PL)

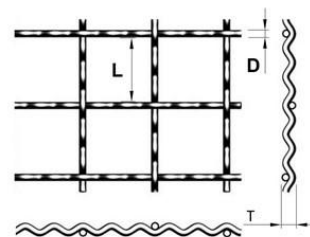

Plain Weave

Plain Crimped

Single Crimped

Double Crimped

Crimped Wire Screen
