# Sand Control Screen

Anping Web Wire Mesh Co.,Ltd.

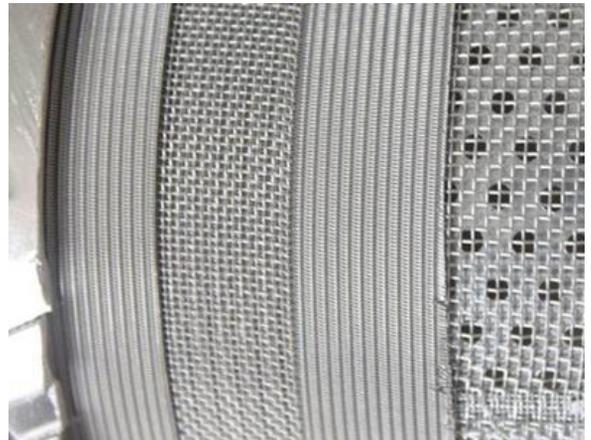

# Knitted Wire Mesh For Sand Control Screen

## Introduction

The sand control screens are used in the vertical wells, horizontal wells, cased hole and open hole wells for sand control. As a basic part of premium sand control screens, the filtration characteristics of stainless steel mesh heavily depends on many factors, such as weave pattern, opening size, wire diameter and alloy type etc. These factors impact open area, tortuous path, mechanical strength, surface texture etc.

Since mesh count, micron rating, weave quality can significantly impact sand control performance, choosing the correct mesh is critical. The wire mesh is available in SS316, SS316L for selection, in both plain square and plain square & plain dutch & twill dutch combination weaves. The ranging in pore sizes is from 60  $\mu\text{m}$  to 600  $\mu\text{m}$ .

| Idea for  | Screen Size  | Features & Benefits  |
|---|--|--|
| <ul style="list-style-type: none"><li>Onshore and offshore wells</li><li>Completions in unconsolidated sands</li><li>Cased hole</li><li>Open hole</li><li>Fracturing completion</li></ul> | <ul style="list-style-type: none"><li>16 mesh</li><li>40 mesh</li><li>24 x 110 mesh</li><li>165 x 800 mesh</li></ul> | <ul style="list-style-type: none"><li>Stable pore structures</li><li>High flow rates</li><li>Clean ability</li><li>Excellent retention rates</li><li>Extremely durable with outstanding burst and collapse resistance values</li><li>Available in materials 316 316L</li></ul> |

# Technical Parameters

## When ordering, please specify:

### 1. Weave Type

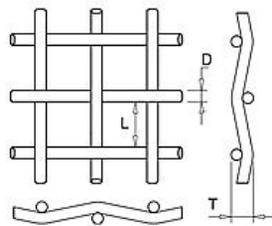

Plain weave, twilled weave, plain dutch weave, twilled dutch weave

### 2. Wire Diameter (D)

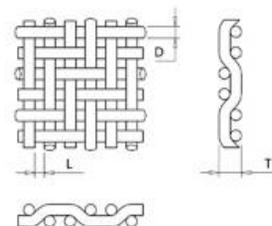

### 3. Hole Size (W1 x W2)

### 4. Roll Width (RW)

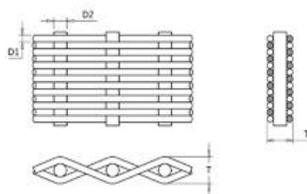

### 5. Roll Length (RL)

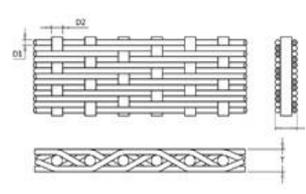

Plain Weave

Twilled Weave

Plain Dutch Weave

Twilled Dutch Weave

## Wire Mesh

| Mesh     | Wire        |                 | Aperture      | Weight             |
|----------|-------------|-----------------|---------------|--------------------|
|          | mm          | inch            | $\mu\text{m}$ | Kgs/m <sup>2</sup> |
| 16       | 0.25        | 0.0098          | 1337          | 0.50               |
| 40       | 0.21        | 0.0082          | 425           | 0.88               |
| 8x85     | 0.45x0.315  | 0.0177x 0.0124  | 275 - 306     | 2.51               |
| 12x64    | 0.56x0.40   | 0.0220 x 0.0157 | 280 - 300     | 1.92               |
| 14x88    | 0.51x0.33   | 0.0200 x 0.0130 | 220 -240      | 3.25               |
| 24x110   | 0.355x0.25  | 0.0139 x 0.0098 | 97 - 112      | 2.47               |
| 30x360   | 0.25x0.15   | 0.0098x0.0060   | 90 -100       | 2.50               |
| 80 x 700 | 0.11 x 0.08 | 0.0043 x 0.0031 | 35 - 38       | 1.37               |
